

Let's Do...Organic® Cornstarch is a wonderful thickening and stabilizing agent, perfect for making gravy, sauce, custard and so much more!

Let's Do...Organic Cornstarch has twice the thickening power of flour. When a recipe calls for flour, use half as much organic cornstarch to thicken your recipe. One tablespoon of cornstarch equals two tablespoons flour. Note: Cornstarch may clump when mixed directly into hot liquids. To avoid clumping, stir organic cornstarch into an equal amount of cold water to make a slurry, mix it into the liquid you want to thicken and heat as necessary.

Organic certification assures you of sustainable farming practices, which nourish soil, protect biodiversity and provide a premium to farmers. Consistent with our company policy, organic certification also prohibits the use of GMOs, artificial colors, preservatives and other unwelcome ingredients.
